RANGER OWNERS

**Legally carry 300kg
MORE PAYLOAD!**

**CERTIFIED
3500KG GVM
IN AUSTRALIA**

Australia's number 1 selling vehicle, the Ford Ranger can be further enhanced with a GVM upgrade from Ironman 4x4 offering a revised total GVM of 3500kg (+300kg).

The Ironman 4x4 GVM upgrade provides welcome additional loading capacity to support heavy accessories and towing.

Ironman 4x4 has been certified Second Stage Manufacturer (CPA 47511) by the Department of Infrastructure, Transport Regional Development (D.O.T.A.R.S.) for the upgrade of Ford Ranger PXII.

Designed and tested for contractors and tradesmen that carry tools and equipment that exceed legal load limits. Fit a bull bar, winch and long range fuel tank and still have load carrying capacity.

Ironman 4x4's GVM Upgrade will assist in satisfying OH&S, insurance and road transport regulation requirements.

As always to be expected Ironman 4x4 has conducted all required testing to ensure complete integration with all safety systems and requirements as well as compliance to Federal laws.
